

Prashant Annigeri

Principal Technical Writer | Principal Information Developer | Documentation Architect

Mumbai, India | +91 7900096260 | techwriter.prashant@gmail.com |

Professional Summary

Principal Technical Writer and Information Developer with 16+ years of experience delivering product, platform, process, and developer documentation across SaaS, cloud, fintech, LMS, aerospace, industrial, optics, and manufacturing environments. Experienced in documentation strategy, information architecture, structured authoring, DITA, docs-as-code, API documentation, content migration, and release-aligned delivery. Proven background leading documentation initiatives, partnering with product and engineering teams, mentoring contributors, and producing user-facing and developer-facing content that improves product readiness, knowledge transfer, and content quality. Hands-on with Oxygen XML Editor, SDL Tridion, Fluid Topics, Confluence, Jira, Bitbucket, Git, Hugo, Swagger, Postman, and modern documentation workflows.

Core Competencies

Documentation Strategy	Information Architecture
Product and Developer Documentation	API Documentation / REST API Content
Structured Authoring / DITA / CMS / CCMS	Docs-as-Code / Markdown / Git / GitHub / GitBook / Hugo
Release Notes / User Guides / Admin Guides / Dev docs	Agile Collaboration / Scrum / Stakeholder Management

Tools and Technologies

- Authoring and publishing: Oxygen XML Editor, SDL Tridion, Fluid Topics, Hugo, GitBook, MkDocs, Adobe FrameMaker, PTC Arbortext Editor, RoboHelp, MadCap Flare
- Collaboration and source control: Jira, Confluence, Bitbucket, Git, VS Code, SharePoint, Google Workspace, Microsoft 365
- API and developer tools: Swagger, Postman
- Standards and technologies: DITA, DITA XML, docs-as-code, Markdown, CMS, CCMS, HTML, CSS, YAML, AWS, Azure, CI/CD, DevOps, ITIL
- Additional tools: Power BI, MS Project, MS Visio, Snagit, Acrobat Pro, Photoshop, Salesforce, Power Automate, UiPath, Python, VBA

Professional Experience

Hitachi Vantara - Pentaho | Oct 2022 - Present

Principal Technical Writer - Pentaho Data Catalog

- Lead documentation planning and delivery for Pentaho Data Catalog, including release notes, user guides, admin guides, and API documentation aligned with product releases.
- Own the documentation plan as TechPub lead by translating engineering roadmap inputs into approved documentation work items and sprint-ready deliverables.
- Author and maintain structured content using DITA-based workflows with Oxygen XML Editor, SDL Tridion, and Fluid Topics publishing infrastructure.
- Create and track documentation Jira tickets in collaboration with product owners and program stakeholders to support release readiness.
- Serve as Scrum Master for the TechPub team and lead agile ceremonies, execution tracking, and team coordination.
- Contribute to agile coaching and Scrum education initiatives for internal teams.

Zeta - Better World Technology Pvt. Ltd. | Oct 2021 - Sep 2022

Staff Information Developer - FinTech cloud product documentation

- Developed documentation for cloud-native fintech products delivered across AWS-based IaaS, PaaS, and SaaS environments.
- Produced end-user, product, and developer documentation, including how-to guides, quick reference guides, user manuals, installation guides, admin guides, API references, runbooks, and cookbooks.
- Worked in a docs-as-code environment using Jira, Confluence, Bitbucket, and Hugo microsites to support engineering-led documentation workflows.
- Supported migration of legacy content and content enrichment activities to improve usability and completeness of product documentation.

L&T Technology Services | Jun 2011 - Oct 2021

Senior System Analyst and Documentation Architect / Offshore Project Lead - Johnson & Johnson Consumer Group - ComplianceWire to SUMMIT migration

- Supported planning and execution of a data migration engagement valued at approximately \$0.36M for LMS migration from ComplianceWire to SUMMIT.
- Developed user guides and quick reference guides for LMS users, admin guides and SOPs for administrators, and API references, developer guides, and status reports for technical and leadership stakeholders.
- Managed migration roadmap activities, standardized data migration, data cleansing, and data approval processes.
- Led a team of five documentation specialists supporting administration and documentation workstreams.
- Maintained focus on incoming data quality for the target SUMMIT application.

Lead Technical Writer / Project Lead - Newport Corporation - SOP and OMS documentation program

- Helped define the documentation strategy from the RFP stage for SOP and Operating Method Sheet development in an optical lens manufacturing environment.
- Led a team of five technical writers creating training-oriented SOP and OMS content by analyzing manufacturing processes for optics components.
- Managed the end-to-end Document Development Life Cycle, including input gathering, analysis of videos and reference materials, task allocation, SME discussions, content review, delivery, and publishing.
- Supported knowledge-transfer initiatives designed to reduce operator dependency and improve process standardization.
- Contributed to department-level automation initiatives as a key member of the automation team.

Documentation Specialist / Offshore Project Lead - Rockwell Automation - Product Information Management

- Designed documentation architecture used to convert legacy PDF data into structured product information for the Rockwell Hybris PIM system.
- Led a team of nine electrical consultants and one Python automation specialist working on ETIM-aligned product specification development.
- Developed user guides, quick reference guides, admin guides, and developer guides for the MyRockwell e-commerce platform.
- Managed project collaboration across product owners, SMEs, and documentation contributors while maintaining on-time delivery and quality.

Technical Writer - Vestas, Gamesa, and Suzlon

- Created wind turbine documentation, including repair, service, maintenance, and operations manuals based on customer and engineering requirements.
- Worked in XML and DITA environments using structured authoring, single sourcing, topic-based writing, and Windchill content management workflows.
- Performed peer reviews, content validation, template standardization, and process improvement activities.

Cades Studec India Technologies | Jan 2010 - Mar 2011

Technical Writer (Author) and Illustrator

- Analyzed and incorporated engineering changes, service bulletins, RFIs, and customer-oriented changes into aircraft wiring and schematic manuals for A380, A330, and A340 programs.
- Authored and updated manual pages using AIRBUS authoring and illustration tools in alignment with applicable technical standards.

Certifications

- **PRINCE2 Practitioner** by **Axelos** (Certificate number: GR657099049PA, candidate number: [9980004685406235](#))
- **Advanced Certified SCRUM Master** by **Scrum Alliance** (Certificate ID: [001114655](#))
- **Certified Agile Project Manager** by **IAPM** (Identification Code: 6RUJ U7XQ UPTY)
- **Microsoft Office Specialist Excel Expert** by **Microsoft** (ID: [2WVB-XMSz](#))
- **ITIL 4 Foundation** by **Axelos** (Certificate ID: [G67146983PA](#))
- **Certified SCRUM Product Owner** by **Scrum Alliance** (Certificate ID: [001114655](#))
- **Microsoft Excel and VBA Trainer** (In-house certification as Internal Trainer)
- **Six Sigma Yellow Belt** by **6SigmaStudy** (Certificate ID: 735370)

Education

- Post-Graduate Diploma in Project Management (Pursuing) - Symbiosis University, Pune
- Aircraft Maintenance Engineering - Avionics, 2009 - VSM Aerospace, Bangalore
- Passed DGCA Paper 1 and Paper 2 license examinations.

Selected Achievements

- Trained 1,500+ employees in MS Excel, Advanced Excel, and VBA as an internal trainer.
- Maintained an average training feedback score of 4.6/5 for Excel and VBA sessions.
- Received multiple performance recognitions, including Star of the Month and Employee of the Year (2018-19).
- Introduced automation initiatives that contributed to the formation of a Common Automation Group at the department level.
